

## Accreditation

Accreditation means that a health department has met the standards and measures set forth by the National Public Health Accreditation Board.

We are in the process of submitting documentation for accreditation. Acquiring this status means that Lincoln Trail District Health Department has shown to meet these standards, has submitted documentation, and are continually working to improve the service it provides.

The board will reevaluate every 5 years to hold Lincoln Trail accountable to continually provide this level of service.

In short, accreditation helps strengthen Lincoln Trail District Health Department among stakeholders, customers, and the community.
